Dear Dave:

I have your letter of 8 September 1978 on the Bureau's control and receipting system for Top Secret and Sensitive Compartmented Information. I thank you for your initiative and the demonstration of participation your actions reflect toward resolving what is a complex and trying issue for all of us.

I have passed your material to the head of the Task Force I have working on reviewing our procedures in the Central Intelligence Agency for his information and consideration as his group moves toward formation of positive recommendations.

Again, I appreciate your thoughtfulness in this matter.

Sincerely,

Robert W. Gambino  
Director of Security
